CRIO CONNECT x CUBANA

Redefining Nightlife with ***Structure***

The nightlife industry doesn't need more parties, it needs structure. A system that moves beyond bookings and buzz, and builds rhythm, recall, and long-term brand equity. This deck introduces that system designed to turn great nights into repetitive assets that grow over time.

The Industry Reality

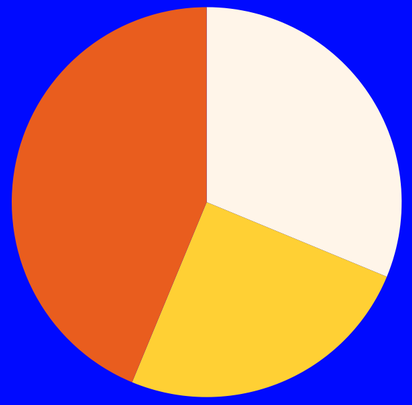
Disjointed programming leads to crowd drop-offs

High artist spend, low brand retention

No visual or digital memory

One-off events ≠ long-term equity

What's Happening in **Nightlife** *Today?*



- 70% of venues rely on artists for crowd pull, but see no retention
- 50% of F&B event budgets go to short-term promoter fixes
- 40% drop in organic social reach for nightlife brands

Club Cubana isn't alone. *Goa's nightlife needs structure, not just footfall.*

Why We're Talking?

Current Models Are **Broken**

Nightlife venues are spending heavily on quick wins to fill rooms, rather than investing in strategies that build lasting value, repeat customers, and authentic engagement. ***It's a short-term fix that creates long-term problems.***

Most Venues **Bleed** Without Realising It

The Default (Broken) Formula

Sales – Expenses = Profit

- 👎 Over-investment in artist fees
- 👎 Zero strategy around ROI
- 👎 Constant short-term thinking
- 👎 Panic during slow seasons
- 👎 No budget for long-term brand growth

The Crio Connect Model (Strategic)

Sales – Profit = Expenses

- 👍 Margin protection
- 👍 Clarity on return before allocation
- 👍 Less dependence on “big nights”
- 👍 Long-term viability
- 👍 Shift from burn to build

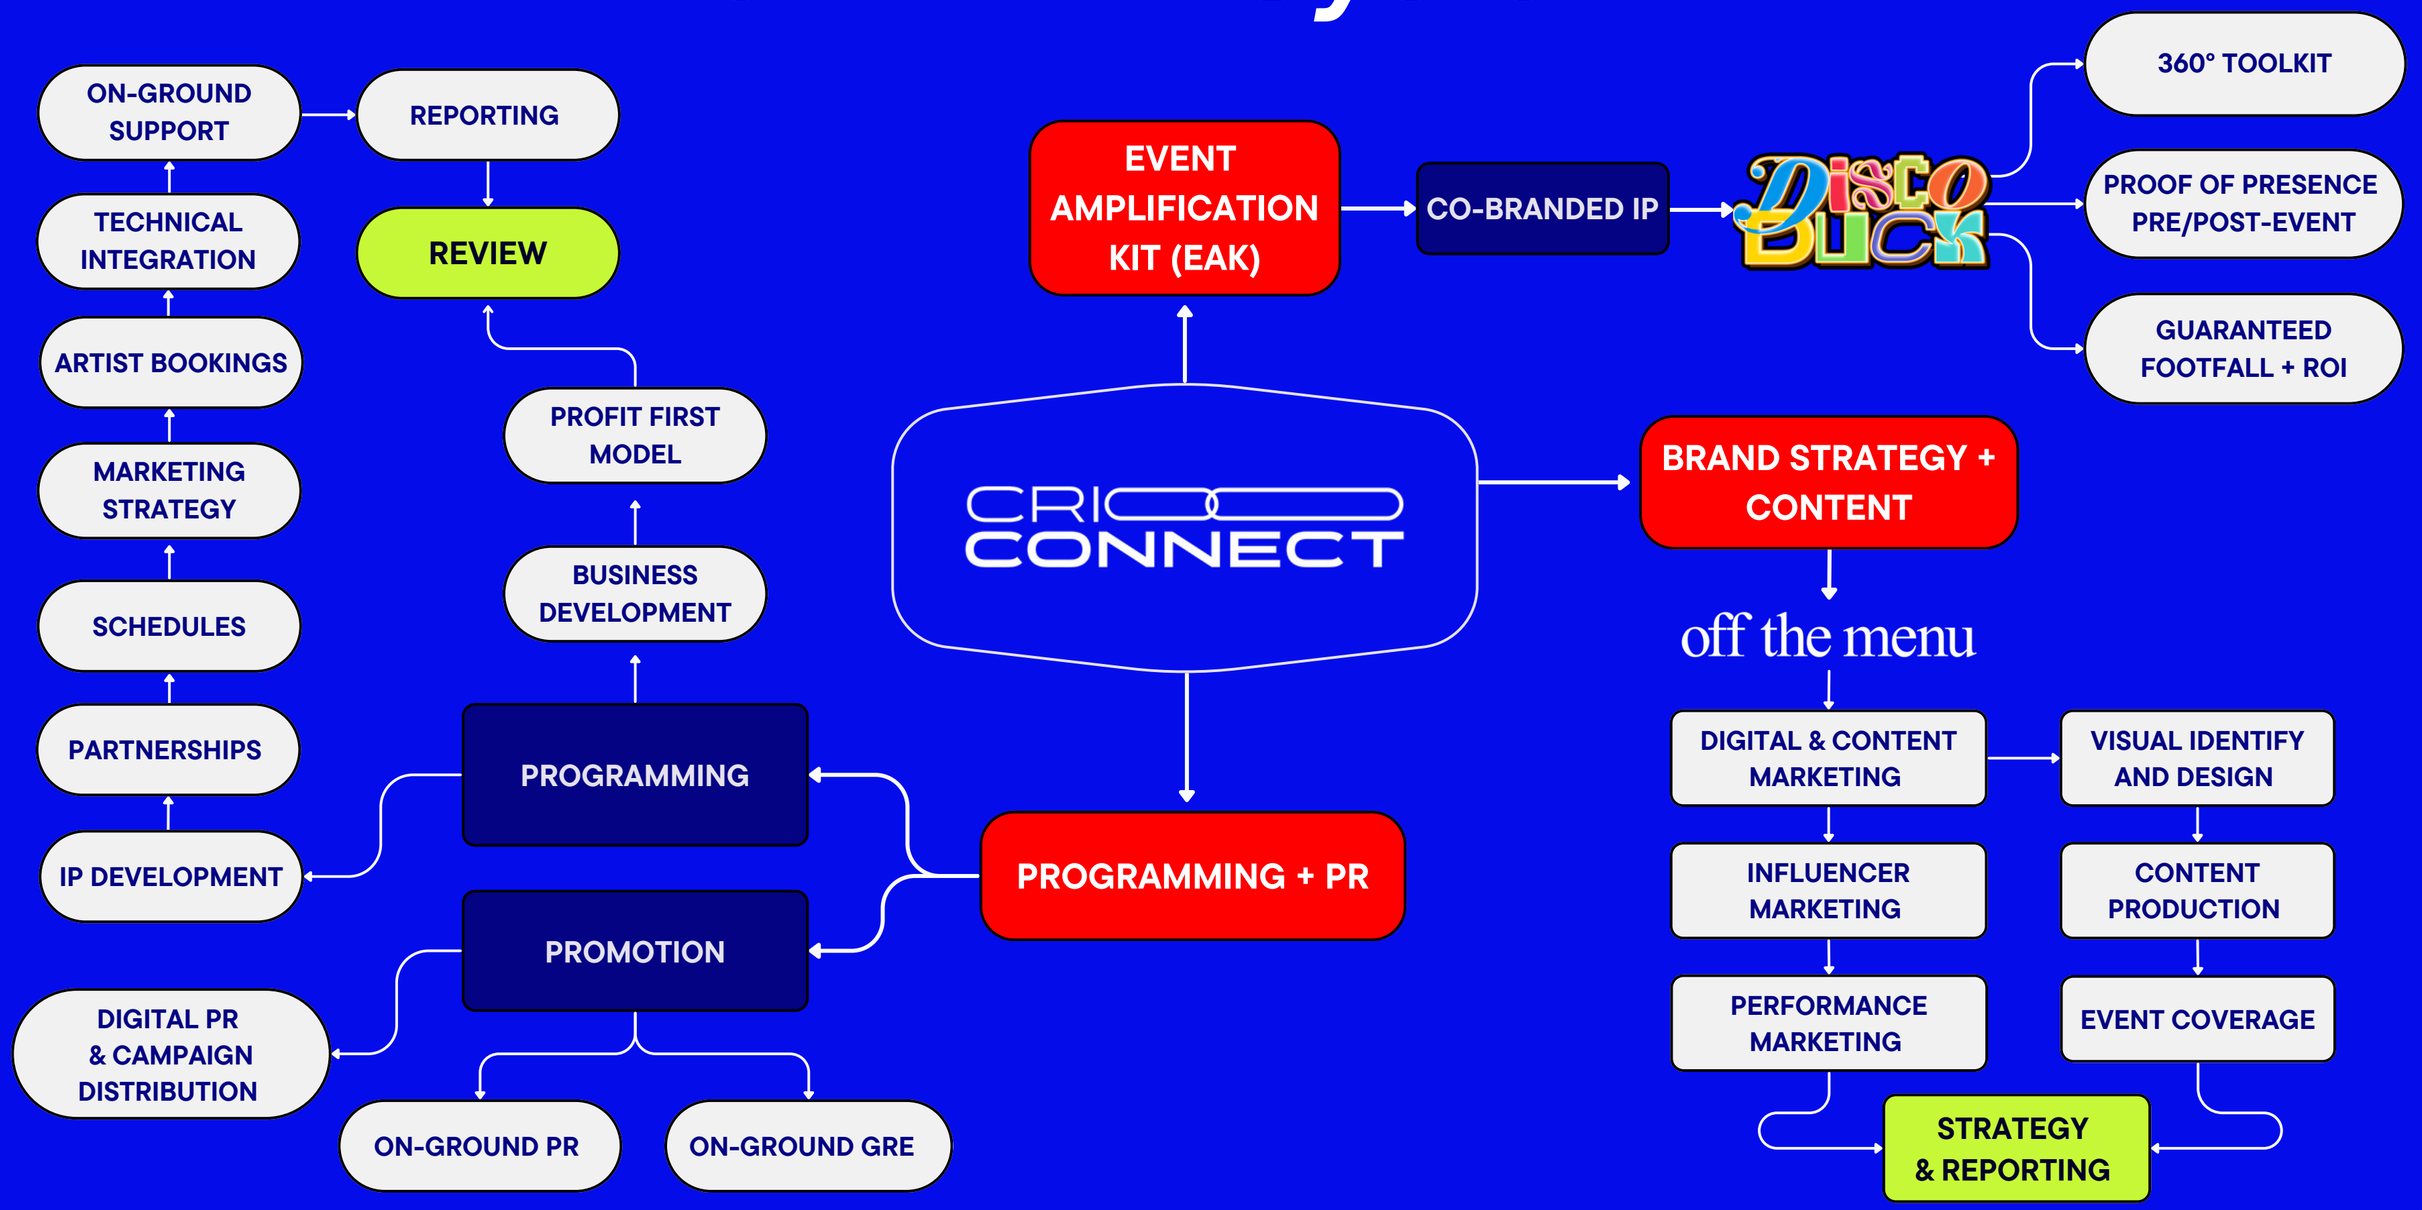
The System to **Redefine** *Nightlife*

Programming → ***Content*** → *Retention* → ***Brand Recall*** → *Growth*

Program. Amplify. Retain.

The Crio Connect Model

3-PILLAR *System*



What Happens When You Build **Programming Like a System**

Metric	Traditional Model	Programming-as-a-Product
Artist Spend	Variable and Inflated	**Calendarised**
Cost Per Event	Artist and Promoter heavy	**Calibrated**
Brand Identity	Event-dependent	**Experience-led**
Cost Efficiency	Ad hoc and Reactive	**Allocated With ROI Goal**
Team Collaboration and Partnerships	Fragmented	**Systemised & Tracked**
Staff & Ops	Post-hoc adjustment	**Pre-planned, tied to profit margin**
Programming	Random + Promoter-led	**Designed and Managed**
Footfall Consistency	Volatile	**Predictable**
Content Longevity	24–48 hrs	**7–10 day cycle**

WHY THIS ***3-PILLAR*** **SYSTEM** WORKS

Program → Amplify → Retain → Repeat

Module	What It Delivers	What It Solves
Programming + PR	Traffic-building formats, PR narratives, Consistent footfall and better artist ROI	Low recall, inconsistent crowd, Ad-hoc bookings and over-reliance on artists
Social Media + Brand Strategy	Brand awareness, user-generated content, content-to-conversion bridge	Weak digital identity, poor discovery
Event Acceleration Kit (EAK)	Real-time amplification, post-event recall, social proof at scale	Low ROI and Under-leveraged Key nights

Cubana Is Poised to Lead

Iconic bar and location

Loyal and high-intent crowd

Premium vibe + experiential potential

Pricing and **Partnership Models**

Tier	Modules	Service Fee
Base Partner	Programming + PR	₹2,60,000
Startegic Partner	Base + Event Amplification Kit	₹3,80,000
Full Stack Partner	All 3 Modules	₹6,55,000 (value)→ ₹5,55,000

You don’t need another agency.

You need a system.

Let’s craft Club Cubana’s next chapter.

CRIO CONNECT
